ABOUT TOSHIBA

Toshiba America Business Solutions, Inc. combines award-winning products and managed print services—delivering comprehensive document management solutions designed for each organization. Toshiba's innovative hardware portfolio, industry-leading assessment and fleet management programs will provide a custom solution to comprehensively address the specific document management needs of each client.

Products - Toshiba's e-STUDIO multi-function products (MFPs) offer industry-leading image quality and a number of advanced security features. These sophisticated and reliable digital imaging products further utilize a single-board architecture that delivers shorter job processing times and a low cost-per-print. Most of our products are EPEAT Registered.

Delivery and Installation - Toshiba will be responsible for delivery and installation of all MFPs, accessories, and software, as well as network connections, testing, removal of packaging material, and initial training.

Service - Toshiba's authorized dealer network will provide prompt and reliable service and supply fulfillment to ensure that our products perform to, or exceed, your high level of expectations. Toshiba service technicians are certified to maintain and service our products, including break/fix and warranty support.

Global Services Portal - Integral to efficient fleet management and reporting is Toshiba's web-based Global Services Portal. This site provides you with a single location to manage your fleet and receive support services 24/7.

Support - Toshiba offers a comprehensive technical support system. The ability to request service is as simple and efficient as dialing a toll-free telephone number or entering a request online. Toshiba maintains an extensive team of technical experts to address and resolve networking, integration, and software-related issues that may occur during and after the installation process.

Reporting - As a global technology leader, Toshiba has extensive reporting capabilities and welcome the opportunity to work with you to design reports that will best meet your needs.

Automated Toner - Toshiba utilizes remote fleet monitoring tools to monitor printers you use, discover which devices are low on toner, and send backup toner when needed.

Managed Print Services - Leveraging Toshiba's PageSmart Program, you get toner, service, parts, and labor included in one low cost-per-page price on your existing printer fleet. This frees up your IT resources to focus on other issues critical to your business saving you valuable time and money. PageSmart portal allows you to manage all aspects of your print fleet including real-time device status, supplies remaining details, supplies shipment information, and more.

ABOUT NASPO VALUEPOINT

NASPO ValuePoint is a nonprofit organization dedicated to providing State's with the support and procurement resources they need.
